

Tool storage system

The tool storage system is a handy storage solution comprised of a sturdy frame and perforated panels. The system only takes up 21.52 sq ft of floor space and provides at least 172 sq ft of storage space for tools and other items. Stands firmly on the floor without mounting. The bottom of each panel has a castor, to support and facilitate movement.

- A freestanding system, no need to mount to the floor
- 21.52 sq ft of floor space and up to 172 sq ft of storage space
- 50+ different tool hooks and brackets
- 4 panels come as standard; extra panels also available
- Width 40.35", depth 40.74" (80.12"), and height 83.66"
- Maximum load per panel 220 lbs, maximum total load for the system 2200 lbs

The TKT tool storage system is great for industries such as automotive repair, heavy equipment manufacturing
